Professional Summary

Software developer with 2+ years of experience specializing in React, Node.js, and JavaScript. Adept at delivering high-quality, user-friendly web applications. Passionate about continuous learning and innovative solutions. Driven by a desire to understand how things work and how I can improve upon existing technologies and applications.

TECHNICAL and RELEVANT SKILLS

Technical Skills: *HTML, CSS, JavaScript, Node.js, React, Git, Github, Api, Routers, React Hooks, Redux, SQL*
Additional Relevant Skills: *Data Analysis, Excel, Word, OneNote, Outlook, Powerpoint, Report preparation, Scheduling, Formatting Documents, Planning Meetings, Tracking, Troubleshooting, Customer Service, Collaboration, Communication, Training Instruction, Project Development*

TECHNICAL PROJECTS

Portfolio React App |Independent| Nov 2024 - present:

<https://github.com/rashad3412/portfolioReactApp>

Project link: <https://rashadportfolioreact.netlify.app/>

- Designed a responsive and engaging digital portfolio to highlight web development skills and projects.
- Integrated React Router for smooth transitions and a user-friendly experience across sections.
- Utilized Tailwind CSS for a clean, minimalist design with custom themes, hover effects, and responsive layouts.
- Included interactive project showcases, social links, and a downloadable resume for easy access to professional details.

iNibble – Food Analytics and Health Insights App (Ongoing) |Independent| Oct 2024 - present

<https://github.com/rashad3412/iNibble>

Project link: <https://inibble.netlify.app/>

- Purpose: Leverage food data to inform users about nutritional content and potential health risks associated with different foods.
 - Interactive Analytics Dashboard: Visualizes nutritional data such as protein, fat, carbs, and calories through customizable charts.
 - Responsive Design: Mobile-first layout with smooth page transitions using React Router, styled to prevent scrolling beyond designated content areas.
 - Educational Content: Features definitions and informative analytics on food-related diseases and their causes. •
- Tools: React, Node.js, Chart.js, CSS, Figma (for design)
- Planned Enhancements: Incorporate user personalization, add more datasets with health-related APIs, and introduce interactive charts for deeper insights.

A 2D Shooting Game Built with Vanilla JavaScript | Independent | Sept/2024|

<https://github.com/rashad3412/shootEmChef>

Project link: <https://cookemchef.netlify.app/>

- Designed an intuitive shooting mechanism, where the chef automatically moves across the screen, and the player focuses on shooting falling food items with touch controls on mobile and spacebar controls on desktop. •
- Implemented random food fall speeds and positions, with a level system that increases difficulty after each round. •
- Ensured compatibility across all screen sizes using media queries and flexible layouts, with a dedicated mobile-first approach.

- Developed a projectile system where successful hits increase the player's score, and added a scorekeeper and replay options for enhanced user engagement.
- HTML, CSS, Vanilla JavaScript.
- Future Features: Planned expansions include additional levels, varied food types, and a leaderboard system.

PROFESSIONAL EXPERIENCE

Norfolk International Airport | Lead | Norfolk, VA 2022 - 2024

- Managed daily operations, overseeing a team of 10-15 agents and ensuring adherence to safety protocols.
- Spearheaded scheduling for 5-10 agents per shift, optimizing resource allocation and ensuring seamless operations.
- Analyzed customer luggage and package data, creating insightful Excel charts for management reporting.
- Supervised special and sensitive deliveries for healthcare and government clients, ensuring compliance and security.
- Conducted critical safety training, fostering a culture of safety and preparedness among the team.

Amazon Fulfillment Center | Ambassador | Suffolk, VA 2022 - 2024

- Delivered onboarding training to classes of 10-20 new hires, ensuring comprehensive knowledge transfer.
- Optimized team schedules, ensuring efficient resource allocation during non-training periods.
- Facilitated daily team meetings, communicating operational expectations and fostering collaboration.
- Prepared shipping, handling, and warehouse operations reports for supervisors and managers, enabling data-driven decision-making.
- Resolved conflicts and disputes, demonstrating strong problem-solving and interpersonal skills.
- Utilized Amazon Web Services to track deliveries, orders, and returns, ensuring accurate and timely fulfillment.

LoanCare | Customer Service | Virginia Beach, VA 2020 - 2022

- Provided exceptional customer service to homeowners, addressing routine and complex inquiries in a high-volume call center environment, handling 50-100 calls daily.
- Explained mortgage-based processes, ensuring customers thoroughly understood their loan information.
- Assisted customers in navigating web-based applications and the company website, enhancing user experience.
- Accurately entered and maintained customer data in the organizational online platform, ensuring data integrity.
